payment. This fee is subject to change. Refer to your Account Contract for more details. To avoid Nonsufficient Funds ("NSF")/Overdraft Fees, you are responsible at all times for keeping track of all your transactions and making sure you have enough Available Funds in your Account to cover all your transactions. To help avoid Nonsufficient Funds ("NSF")/Overdraft Fees on your Account, TCF encourages you to ask about an Overdraft Protection plan for your Account, or to call the number shown in your Account Contract under "Contacting TCF" to obtain balance information before entering into any transaction that might cause an inadvertent overdraft in your Account. Please note that the balance information may not reflect certain items, including your most recent or pending transactions or transactions that will be posted to your Account at the end of the Business Day.

<sup>1</sup> See Additional Deposit Account Services and Fees for other service fees. Service fees are subject to change. For other important information see your "Terms and Conditions for Checking and Savings Accounts" disclosure booklet.

<sup>2</sup> At least one owner must be age 50 or older.

<sup>3</sup> Interest rate and Annual Percentage Yield may change. At TCF's discretion, TCF may change the interest rate on your Account at any time without notice. **Interest rates and Annual Percentage Yields for TCF Power Savings may be different depending on the date the account was opened. For example, accounts opened during a certain promotional period may have an interest rate and Annual Percentage Yield that is higher than accounts opened in other periods.** TCF uses the daily balance method to calculate interest on Checking Accounts and Savings Accounts. The daily balance method applies a daily periodic rate to the principal in the account each day. Interest begins to accrue no later than the Business Day TCF receives credit for the deposit of non-cash items (for example, checks). See "Funds Availability Schedule for Checking and Savings Accounts" for further information (as applicable). See also TCF's "Current Rates and Yields" schedule for Annual Percentage Yield disclosures. Fees could reduce earnings.

<sup>4</sup> Where interest is compounded monthly, interest is also compounded at year end for any partial statement period. Interest is credited on the last day of each period and at year end.

<sup>5</sup> Checks may be requested for this Account.

<sup>6</sup> Listed above are the balance tiers for this Account. Interest rates and Annual Percentage Yields offered within two or more consecutive tiers may be the same. When this is the case, the TCF "Current Rates and Yields" schedule may show these multiple tiers as a single tier. Each tier shown reflects the current minimum balance required to obtain the applicable Annual Percentage Yield, which will be paid on the entire collected balance in your Account.

<sup>7</sup> "Household Balance" includes the sum of the ledger balances of your TCF deposit account(s) (Checking, Savings, including Certificates of Deposit, and Money Market accounts) as of the end of the last Business Day of the preceding calendar month. Deposit accounts included in the Household Balance are those TCF accounts owned by any Account owners on this TCF Account (a matching Tax Identification Number ["TIN"]).

<sup>8</sup> Customer required to order a box of checks through TCF at account opening.
